Technical innovation for the Winter season 2016 - 2017...

The screen M5.8 on sledge can access almost everywhere with astonishing ease !

It is perfectly adapted for snowy landscapes thanks to its sledge pulled by a classic snowplough provided by the client. It is practically a «Plug and Play» product and may not need a permanent technician for its operation.

The installation includes :

- a high resolution and high contrast screen of 6,5 m²
- a satellite dish for TV reception
- a sound system in option
- a power generator in option
